Minute taker: HR Partner, Pia Lind Lunau Kristensen

1. Forskningsevaluering/Research Evaluation - by Head of Department

Head of Department sent a draft of the report to LSU members by 29th April 2024 and to be discussed at the meeting today.

Head of Department present the report and asked for input.

The input was discussed, and Head of Department asked to receive the input in writing. Head of Department confirmed that he finds the input relevant and confirmed that he and the management group will try to incorporate the relevant input. The scope of the report is limited and therefore not possible to describe everything in the report.

LSU will meet again 22nd May and discuss the next version of the report.
