

Martin Roelsgaard Jakobsen, Professor and co-founder of STipe Therapeutics & UNIKUM Therapeutics

Thomas Ravkilde, Medical physicist and Inventor

# Merging medical research and entrepreneurship

MEET THE KITCHEN - WHO ARE WE? AND HOW CAN WE SUPPORT YOUR ENTREPRENEURIAL JOURNEY?

How do you go from experienced researcher to also being an entrepreneur? What drives you, how do you find funding - and how can The Kitchen AU support you along the way via funding sparring, workshops and corporate partnerships?

On Wednesday the 6th of October the biggest entrepreneurial community at Aarhus University; The Kitchen and The Inflammation Network invites you to get an insight look into the entrepreneurial journey of two researchers from the Faculty of Health. On stage you will meet Thomas Ravkilde, Medical physicist and Inventor and Martin Roelsgaard Jakobsen, Professor and serial entrepreneur.

Furthermore, the Kitchen AU will share what tailored services and programs, we offer researchers who are considering the journey of entrepreneurship. We hope to see you in the Kitchen.

**Don't forget to sign up.**
