

Unravelling the mystery behind endometriosis

Monday 7 October 2019 at 17.00 – 19.00

Professor Linda Giudice
Obstetrics, Gynecology and
Reproductive Sciences,
University of California
San Francisco (UCSF)
CA, USA

Professor Krina Zondervan
Wellcome Centre for Human
Genetics, University of Oxford,
Oxford, UK

1 in 10 women suffer from endometriosis – a common, yet poorly understood disease.

Dr Giudice and Dr Zondervan, newly appointed Honorary SKOU professors at Aarhus University, and board members of the World Endometriosis Society and World Endometriosis Research Foundation, will be talking about the current status of endometriosis research, and what we have learned so far.

The meeting is open for everyone: clinicians, patients, friends, researchers .. all who are interested in women's reproductive health. It will be held in English (in non-technical terms). The goal is to spread knowledge, increase awareness, and spike collaborations.

Title:

Unravelling the mystery behind endometriosis.

Venue:

Aarhus Universitetshospital, Palle Juul-Jensens Boulevard, indgang G6, auditorium G206-142 (det gamle auditorium B)

Program:

- 17.00 – 17.10 Welcome by Professor Axel Forman and Lone Hummelshøj
